

Gold Award Winner for classroom furniture that enhances the learning environment

THKNK01E

THINK NOOK™

Academic success goes hand in hand with social and emotional learning. As such, the emerging design criteria for today's collaborative classroom should contain a multitude of tools designed to help teachers build students strengths, enhance their learning styles, and support healthy transitions between group work and individualized learning. The patented Think Nook is the perfect solution for students who need quiet time to think, read or simply recharge.

"The **Think Nook** has application to minimize external stimulation and allows students to **self-regulate, refocus and manage distractions** while remaining present and visible in group learning environments, reducing the need to remove students from the classroom which may further exacerbate trauma symptoms."

Anna Iversen

MS, LMFT UC Santa Cruz, Behavioral Health, ACEs Expert

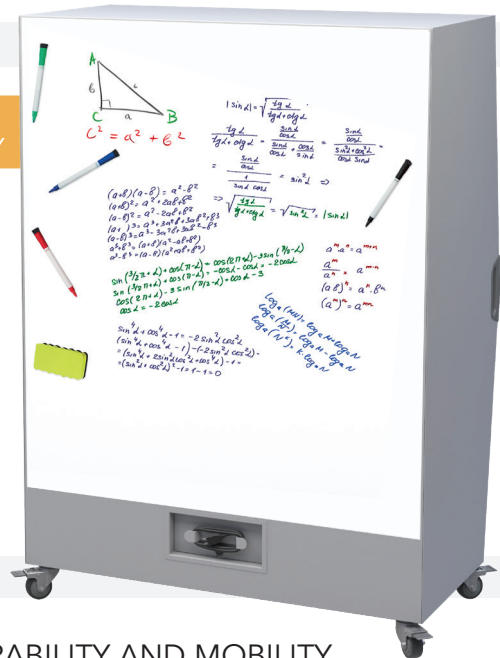

COMFORT AND FUNCTIONALITY

The Think Nook works as a comfortable space for one or two students to sit and collaborate as a team or provides for a more personal "me" space. The upholstered seat, back and ceiling of the Think Nook help create a quiet and reflective enclave separate from the more collaborative parts of today's busy classroom. Convenient cubby storage space below the seat combined with a duplex outlet for charging of devices make this the perfect solution for all types of learning environments.

ALL METAL CONSTRUCTION
FOR INCREASED DURABILITY

VERSATILITY

The Think Nook comes standard with a white board surface on the back of the unit. Because the entire case is of metal construction magnetic markers and erasers can easily be attached for quick access. Equipped with heavy duty casters, the entire unit can easily be oriented so that the back side can serve as an ideation space for small groups or individual problem solving.

DURABILITY AND MOBILITY

The Think Nook case is constructed with all metal components for a life time of use, a hallmark of Haskell Education design and construction. With the integrated handle design, durable locking casters and all metal construction, the Think Nook is perfect for active learning spaces that need to be re-configured for multiple learning modalities. As part of the Explorer suite of solutions, the Think Nook easily supports dedicated and mobile makerspace environments and works seamlessly in any of today's collaborative learning spaces.
