SCRIBBLE™

SEATING

Shown with Build™ tables, Storyline™ bookcases and Tangram™ soft seating.

WIGGLE ROOM BUILT IN

Scribble gives every student a little wiggle room to learn. A looping tactile texture beneath the seat gives restless hands a sensory anchor so students can find their focus and stay there. The contoured seat and flexible back move with them through each shift in the day, and durable, cleanable construction holds up through years of daily use.

ROOM TO FOCUS

Support natural movement without disrupting learning.

HOME FOR BUSY HANDS

The looping tactile texture beneath the seat gives restless hands a quiet outlet, so students can regulate and refocus without drawing attention or causing disruption.

READY FOR THE SCHOOL DAY

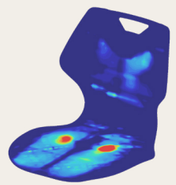
With an integrated handle on the back of the chair, Scribble is light enough for students to move and durable enough for years of them doing it.

DESIGNED FOR REAL STUDENTS

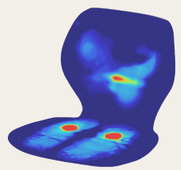
Every contour of the seat and back is mapped to student comfort. Built for a 4-way sit—forward, sideways, leaned back, or straight on—so comfort holds no matter which way they turn.

A BACK FOR THE PACK

The open shape of the back makes room for backpacks, helping keep bags close and off the floor.



Scribble distributes weight for fewer pressure points on the seat and back.



Competitor product shows more defined pressure points.

SUPPORTIVE COMFORT FOR EVERY BODY

Pressure mapped against competing classroom chairs, Scribble's contoured seat distributes weight more evenly across the seat and back, minimizing pressure points to support circulation and reduce muscle fatigue throughout the school day. A waterfall edge eases pressure behind the knees, and built-in lumbar support keeps the lower back properly aligned, keeping students comfortable and focused throughout the day.

ROOM FOR EVERY LEARNER

From a 6" 4-leg chair to café-height stools, Scribble offers seating for K–12 students, plus 4-leg and task models that support up to 400 lbs.

4-Leg Chair
6", 12", 14", 16", and 18"H

Counter-Height Stool, 24"H

Café-Height Stool, 30"H

Cantilever Chair
14", 16", and 18"H

Task Chair

Task Stool

4-Leg chairs, 4-leg stools, and cantilever chairs stack 5-high on the floor.

SENSORY TEXTURE
A traceable, looping texture gives fingers a path to follow—quiet sensory regulation, built into every seat.

CLEANABLE BACK
A smooth, closed back with no ridges or grooves, so clean up takes seconds with nothing to hide.

BUMPERS
Built-in bumpers help protect surfaces when chairs are stacked, reducing scuffs and scratches.
